

CATTLE BARNS

That Improve Your Bottom Line

EPSBUILDINGS.COM

Cattle Confinement

DESIGNED FOR A MORE EFFICIENT OPERATION

Advantages of Mono-slope

Improved performance

- Improved finished weights
- Improved rate gain and feed efficiency

Cattle friendly

- Shelter from extreme weather
- Shade in summer
- Natural ventilation

Improved operations

- Better working conditions
- Easier manure containment and management
- Fits deep pit, deep pack bedded or scraper/flush

Custom design and engineering

- Snow loads to meet or exceed building codes
- Withstands 90 MPH in a B-exposure
- Any length or width to fit your needs

“We were very impressed with the laminate-style trusses. They create a very clean appearance with very few places for birds to roost. Overall, a very impressive building package. In addition, many of the visiting cattlemen who toured the barns were impressed with the overall appearance and design. We’re planning on putting two more barns up this year!” – Bryan J. Sievers, President, Glenora Feed Yard/Sievers Family Farms

Barns to Fit Your Operation

Building Options

Clear span or interior columns

For wide widths

Roof support

Open web trusses

Glue-lam beams

Nail-laminate column

Roof insulation

Drip Stop

Bubble pack

Solar Guard

Tuff Roll

Accessory buildings

Hay and commodity barns

Cattle sorting and handling

No job too big or too small

Glue-lam beams

Open web trusses

Solar front cattle shed

Optional curtain for north side exposure
